TECTONIC TITANS

Titanic tales of earth-moving Feats, including

"DEVELOPERS IN DISTRESS!"

LECONTR

Castle takes on

THEM ALL!

Demolition! Earthwork! Concrete! Utilities!

CASTLE TAKES ON THEM ALL!

ALL IS NOT WELL IN THE RIVER CITY ...

Inefficiency, inconsistency, and the mayhem of multi-contractor management threatens the development of this growing gotham. Specialized contractors operate in near anarchy, transforming sitework into a patchwork of confusion and conflict. Grime runs rampant.

But there is still hope for our citizen developers.

For among them roams the trusted defenders of Budgets, Schedules, and the Developer's Way — partners with the integrity, intensity, and intelligence to save the day. The Tectonic Titans at Castle Contracting.

**CASTLE
CONTRACTING!**

760 South 2nd Street
St Louis, MO 63102

**CONSTRUCTIVE
CITIZENS!**

**HELP CASTLE
BATTLE AGAINST
MULTI-CONTRACTOR
MAYHEM!**

This League of Professionals combines brains and brawn to handle every element of site preparation, crafting **TOTAL SITework SOLUTIONS** to establish the Foundation of successful builds. While mere mortals tremble at the challenges of a project, Castle takes on them all:

- Utility Infrastructure!
- Site Demolition!
- Concrete!
- Landscaping!
- Earthwork!
- Grading!
- Pavement!
- Layout!
- Geotechnical services!

Through everyday heroics — hard work, skill, and dedication — Castle reinforces the relationships that let anxious developers rest easy. (Plus, "Evildoers, beware!" is more convincing with a Jackhammer)
